

GOCHIP

Your ticket to mobile entertainment on the go

www.mackay.qld.gov.au/libraries

BORROW A GOCHIP BEAM AND WATCH MOVIES AND TV WHEN AND WHERE YOU WANT.

Play GoChips on up to 8 devices at the same time: each person playing what they want, when they want. It's truly magic! You provide the popcorn, we provide the fun.

1. Download the app, create your account and log in

Visit gochip.com/apps on your smart phone, tablet or PC to download the app, then create an account and log in.

2. Power on the Beam

Press and hold the power button for 3 seconds until the right light turns solid green.

3. Connect your device

On your mobile device, open Settings > Wi-Fi to connect to the GoChip Beam (see label on your Beam for network name and password), then wait for an indication that your device is connected. Please note: when you connect to your Beam, your device may let you know that you are no longer connected to the Internet. This is expected behavior because you are now connected to the Beam and not to the Internet—giving you access to all your movies & TV shows from the GoChip—without Internet access, streaming or downloading.

4. Just Play!

Start the GoChip app and enjoy your movie or TV show.

5. Power off the Beam

Press and hold the power button for 3 seconds until the right green light turns off.

GoChips are available in a variety of genres including action, adventure, horror, family, kids, drama, thriller, feature films, supernatural and television series.
