

Schedule of Regulatory Fees and Charges January 2012 to June 2012

Approved as at 25 May 2011

REGULATORY FEES AND CHARGES 2011-2012 PREAMBLE

GENERAL NOTES

This years approach to setting the fees and charges is based on the following principals:
 * Meeting Councils objective in the Corporate Plan - 'minimise dependency on rates income'
 * A staged plan over a number of years to achieve cost recovery of direct and indirect costs
 * Differential fees for electronically lodged v hard copy lodged applications
 * Consideration of any community service obligations

1 For a combined application or multi-use applications, the fee for the application shall be based on the fee for each component part, unless the secondary or other use is ancillary (a use/s which is necessarily associated with, but incidental and subordinate to, the particular use) or otherwise as determined by Council.

2 Council reserves the right to request higher fees in exceptional circumstances or where there is no fee or the relevant fee will be insufficient to meet the costs incurred by Council.

3 Where the fee is shown as P.O.A. (Price on Application) quotations will be provided upon request to the relevant manager in writing and including forms and building plans (1 copy).

4 Offshore islands inspection costs are additional to the standard fees and charges as detailed below. The required additional fee is to be negotiated with the relevant manager at the time of lodgement of an application or request that requires one or more site visits. The additional fee will incorporate travel costs and additional staff time.

DEVELOPMENT ASSESSMENT & DEVELOPMENT ENGINEERING

1 If development applications are not lodged electronically via Smart eDA, then the fee to be paid is **5% greater** than the development application fee contained in the schedule.

2 The application fees cover the IDAS stages from lodgement to decision excluding Negotiated Decision requests and Changing an Application (s351 SPA)

3 Where a use is not defined in the planning scheme, the fee will be set as the use deemed most similar by the MDA, MDE, DDS or CEO.

4 "GFA or part thereof" GFA is defined as per the relevant planning scheme rounded up to the next 100m². (i.e. 450m² GFA rounds up to 500m²)

5 References to the Mackay City Planning Scheme, Sarina Shire Planning Scheme and Mirani Shire Planning Scheme refer to both the current and superseded planning schemes

6 The value of a project is the value of works covered by the application. Where any uncertainty occurs in the calculation of the value of a project, the applicant is advised to contact the Development Services Customer Service Counter prior to lodging an application to confirm the calculation of the value of a project.

DEVELOPMENT ASSESSMENT AND DEVELOPMENT ENGINEERING - REFUNDS

1 Refund of Application Fee when a application lapses pursuant to s266 (not properly made) - 80% of application fee

2 Refund of fees when an application is withdrawn:

a) If Application submitted and preliminary clerical work completed - 90% of application fee

b) If Acknowledgement notice issued - 70% of application fee

c) If Information request issued – 40% of application fee

d) If Notification stage commenced – 20% of application fee

e) If Concurrence Referral Agency have given their response – 10% of application fee

f) If Report/Assessment Memo commenced – 5% of application fee

| Disconnection of house drainage service (including excavation, excl traffic control) < 2 m Depth | a | SPDR s.33 LGA09s97 | NA | \$1,540 |
| Plumbing Application Fees | | | | |
| The fee structure includes one inspection of all mandatory inspection stages as noted in the development permit. In the event additional inspections become necessary, the relevant additional/re-inspection fee will apply and must be paid prior to the service. | | | | |
| NB: Plumbing Applications require quality plans that address all required aspects of the applicable legislation. | | | | |
| Where the fee is shown as Price on Application (POA) quotations can be provided on request. | | | | |
| A 100% surcharge applies to all retrospective development applications, that is plumbing works already commenced and/or completed. | | | | |
| The installation of 'required' water meters in class 2 to 9 buildings are considered as fixtures and will be charged at fixture rates. | | | | |
| Note: All Plumbing Applications require professional quality plans detailing compliance with all the relevant aspects of Queensland Government Plumbing Legislation at time of lodgment. | | | | |
| New Dwellings and Outbuildings (Class 1 & 10) | | | | |
