

DWQMP Section	Page No.	Revision of Amendment	Amendment
Table 1-1	13	5	updated table of MRC schemes to reflect fact that the Mirani scheme is now amalgamated with the Marian scheme
2.2	14	5	comment regarding estimates for growth rate updated to reflect current growth rate
Table 2-1	15	5	updated table so that Marian and Mirani schemes details are combined
2.2	15	5	note regarding lower total population estimates below Table 2-1 amended to remove reference to Mirani water supply scheme
3.2.1	18	5	updated reference to range of rainfall data presented in Figure 3-1 and removed reference to extreme rainfall events
Figure 3-1	19	5	updated graph with new rainfall data
3.2.2	19	5	updated figures describing source water breakdown between Dumbleton weir and bore source water
3.2.2	20	5	updated to reflect revision and amendments made to the Pioneer Valley Resource Operation Plan 2005
3.2.2	20	5	updated description of water entitlement and allocation details
Figure 3-3	22	5	schematic updated to remove chlorine gas dosing point pre aeration basin which does not exist
3.2.3	23	5	reference to chemical dosed for fluoridation updated to reflect correct chemical used on site
3.2.3	23	5	text removed which described incorrectly that chlorine gas was dosed at Nebo Rd WTP prior to the aerator
3.2.5	23	5	updated number of rechlorination systems to reflect rechlorination systems recently brought on line
Table 3-1	24	5	chemical supplier details updated
3.2.7	25	5	statistical analysis date range changed
3.2.8	26	5	comment regarding groundwater quality data availability amended to reflect current availability and to provide an explanation for the limited availability
3.2.8	26	5	rewording of sentence describing groundwater contamination potential
3.2.8	26	5	paragraph ordering for Bore heading changed
3.2.10	26	5	text added to explain the change from faecal coliform to E.coli testing
3.2.11	26-27	5	updated description of water quality
3.2.11	27		text added to explain the change from faecal coliform to E.coli testing
Table 3-2	27	5	updated with 2 new E.coli detection events
3.3.2	28	5	reference to 'entitlement' changed to 'allocation'
3.3.6	30	5	statistical analysis date range changed
3.3.7	30		updated details regarding E.coli detection
3.4	31-40	5	new section added (replaced sections 3.4 and 3.5) to reflect commissioning of Marian WTP and subsequent amalgamation of Marian and Mirani water supply schemes
3.5.2	40	5	updated reference to Pioneer Valley Resource Operation Plan
3.5.2	40	5	rewording of comments regarding sourcing water from Cattle Creek, including addition of date of decommissioning
3.5.6	42	5	statistical analysis date range changed
3.6.6	46	5	statistical analysis date range changed
Figure 3-15	48	5	updated graph with new rainfall data
3.7.2	49	5	details added regarding use of Marwood bores
3.7.2	49	5	updated reference to Pioneer Valley Resource Operation Plan
3.7.3	52	5	WTP consumption rates updated to reflect recent review of consumption data
3.7.4	53	5	update to incorrect description of sodium hypochlorite dosing point at Armstrong Beach
3.7.5	53	5	updated description distribution details
3.7.7	55	5	statistical analysis date range changed
3.7.8	56	5	updated description of water quality
3.7.9	56	5	updated description of water quality
3.7.10	56-57	5	updated description of water quality
3.8.2	58	5	updated reference to Pioneer Valley Resource Operation Plan
3.8.6	60	5	statistical analysis date range changed
3.8.8	60	5	Sentence order updated
3.9.7	63	5	statistical analysis date range changed
3.10.1	64	5	updated reference to date range for data presented in Figure 3-21
Figure 3-21	64	5	updated graph with new rainfall data
3.10.6	66	5	statistical analysis date range changed
3.11.3	68	5	updated description of treatment and disinfection processes to reflect operational changes
3.11.4	68-69	5	updated description of distribution and reticulation to reflect operational changes
3.11.6	69-70	5	updated description of water quality
3.11.7	70	5	updated details regarding E.coli detection
Table 3-14	71-72	5	Table replaced with updated water quality complaints summary
5.1	80	5	Deleted reference to pending review and update which have been completed
Table 5-2	83	5	Removed incorrect document number references
Table 5-2	83-85	5	References to new documents added to table to reflect updated document library
Table 5-3	86	5	CCP procedure references updated to reflect new procedures
6.4.2	91	5	updated text to reflect task completion regarding upload of historical data
10.1	100	5	updated location of recording and registration of meeting minutes to reflect new document control
11	102	5	updated reference list to reflect version update for Pioneer Valley Resource Operations Plan and new access date for BOM data
11	102	5	new reference for City Water Technology report added
Appendix 1	n/a	2	replaced with latest version
Appendix 3	n/a	2	updated schematics with various changes
Appendix 7	n/a	2	updated with details on Marian WTP
Appendix 9		2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 10	n/a	2	updated with details on Seaforth rechlorination facility and Midge Point Reservoir rechlorination facility
Appendix 14	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 15	n/a	2	replaced with latest version
Appendix 16	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 17	n/a	2	updated header and footer title changed to 'Disinfection - CCP Procedure - Marian Bores' to reflect that the CCP relates to CCPs for emergency treated bore supply only updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map

DWQMP Section	Page No.	Revision of Amendment	Amendment
Appendix 20	n/a	2	updated header and footer title changed to 'Disinfection - CCP Procedure - Mirni Bores' to reflect that the CCP relates to CCPs for emergency treated bore supply only updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 21	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 22	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 25	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 26	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 30	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 32	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 34	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated responsibilities and authorities table updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 35	n/a	2	updated header and footer updated number of reticulated drinking water supply schemes described in the introduction to reflect that Marian and Mirani are now a singular scheme updated free chlorine residual operational targets table updated corrective actions table and process map
Appendix 36	n/a	2	risk register updated with risks for Marian WTP CCPs updated to reflect updated CCP procedures monitoring captured as a preventative measure updated to reflect updated Drinking Water Monitoring Program RMIP tasks within register updated to reflect updated RMIP
Appendix 37	n/a	2	replaced with latest version
Appendix 40	n/a	2	replaced with latest version
Appendix 41	n/a	2	replaced with latest version
Appendix 42	n/a	1	added Appendix to DWQMP (Disinfection - CCP Procedure - Marian WTP)
Appendix 43	n/a	1	added Appendix to DWQMP (Fluoridation - CCP Procedure - Marian WTP)
Appendix 44	n/a	1	added Appendix to DWQMP (Coagulation, Sedimentation & Filtration - CCP Procedure - Marian WTP)
Appendix 45	n/a	1	added Appendix to DWQMP (Fluoridation - CCP Procedure - Nebo Rd WTP)
Appendix 46	n/a	1	added Appendix to DWQMP (Coagulation, Sedimentation & Filtration - CCP Procedure - Nebo Rd WTP)
Appendix 47	n/a	1	added Appendix to DWQMP (Fluoridation - CCP Procedure - Sarina)
Appendix 48	n/a	1	added Appendix to DWQMP (Coagulation, Sedimentation & Filtration - CCP Procedure - Sarina WTP)
