

Smooth Flax Lily

Dianella longifolia

dy-an-ELL-uh long-gee-FOH-lee-uh

Height: 0.8 metre

Spread: 0.5 metre

Full sun to part shade

Drought tolerant once established

Prefers a well-drained soil

Insect attracting

Traditional use plant

A hardy tufted perennial herb with strappy grey/green foliage and fleshy fibrous roots

Blue star shaped flowers are held on long flower spikes above the foliage followed by attractive purple berries. Removing spent seed heads keeps this plant looking fresh.

Whether mass planted, single rows or as individual plants in this plant is sure to be a stunner.
