

Snake Vine

Hibbertia scandens
HI-burr-shea SCAN-dens

Height: 0.5 to 3 metres

Spread: 1 to 5 metres

A vigorous climbing plant, or ground cover without support, with intense blooms of golden yellow flowers during spring and summer.

Individual flowers only last one or two days but are replaced over a long period. Tolerates coastal gardens.

Makes an excellent screening plant on walls or fences.
Makes a superb trailing plant for a tall or hanging pot.

Full sun to part shade

Drought tolerant once established

Adaptable to a wide range of soils

Butterfly attracting

Insect attracting
