

Hooker's Bauhinia

Lysiphyllum hookeri
Lye-see-FILL-um HOOK-er-eye

An attractive rounded small tree with white orchid like flowers and prominent long red stamens.

The dark fissured trunk and lobed grey/green foliage make for an interesting feature or shade tree.

This tree can be semi deciduous in drier periods. The leaf drop will be followed by a brilliant show of flowers.

Height: 5 to 8 metres

Spread: 5 metres

Performs best in full sun

Drought tolerant once established

Can tolerate a wide range of soils

Attracts insects
