

Poor-flower Tree

Height: 1.5 metres

Spread: 1.5 metres

Memecylon pauciflorum

Mem-ee-KY-lon pow-kee-FLOR-um

Full sun to part shade

Prefers a moist situation

Prefers a fertile well-drained soil

Bird attracting

A small scrambling shrub with arching branches with pale purple flowers scattered along the stems followed by deep purple to black berries.

A pretty shrub suitable for understorey planting. Keep well watered when planted in full sun.
