

Brush Hovea

Hovea longipes
Hoe-VEE-ah LON-gih-pezh

Height: up to 3 metres

Spread: up to 3 metres

Suitable for hedging

Full sun

Prefers a drier,
less humid
location

Prefers a well-
drained sandy or
loamy soil

Insect attracting

An attractive rounded shrub with purple pea flowers from March to September which makes for a pretty hedge.

The leaves have a notched tip and the underside may be densely clothed in hairs.

To encourage a tighter denser habit regular light pruning is recommended.
