

# Blue Vitex

*Vitex trifolia*

VY-tek-s try-FOH-lee-uh

**A lovely low-sprawling shrub with green, greyish foliage and delicate pale bluish purple fragrant flowers.**

Hardy, salt tolerant and drought resistant, it can be used as a hedge or screen. Regular tip pruning will help promote dense foliage. Heavy annual pruning will encourage new growth and more flowers.

Category: Shrub (under 5m)

Height: 4 metres

Spread: 3 metres

Full sun

Drought tolerant once established

Well-drained soil

Bee attracting

Butterfly attracting

Suitable for hedging

**HOT TIP: Tolerates drought but thrives in well-watered conditions and subtropical climates.**
