

# Plant Name

*Murdannia graminea*

mer-DAN-ee-a gram-IN-ee-a

**Category:** Ground cover/Low-growing  
Under 1m

**Height:** 0.6 metre

**Spread:** 0.2 metre

Full sun

Drought tolerant  
once established

Well-drained soil

Bee attracting

Butterfly  
attracting

Traditional use  
plant

**A slender, tufted grass-like plant with 3-petalled lavender or purple flowers on stems to 60cm tall in spring & summer.**

Each plant forms up to 20 slender tubers which are bush food. Usually, will die back to its tubers over winter or the dry season, re-sprouting with the return of the rain.

**HOT TIP:** A great plant for rockery areas
