

Native Lobelia

Lobelia membranacea

low-BEE-lee-uh mem-bran-AY-see-ah

A dainty prostrate evergreen groundcover that is fast growing, producing masses of bright blue flowers in Spring.

This plant makes a great lawn alternative in low traffic areas and is also suitable for hanging baskets.

When grown in full sun ensure adequate moisture for best results.

Height: 10 cm

Spread: 0.5 - 1 metre

Lawn alternative

Full sun to part shade

Prefers a moist position

Performs best in a fertile soil

Butterfly attracting
