

Showy Sauropus

Synostemon albiflorus

sin-OST-ee-mon alb-ih-FLOR-us

Category: Shrub (under 5m)

Height: 2 metres

Spread: 0.5 metre

The open habit and fine foliage of this upright shrub adds delicate texture and interest to a garden.

Small, white flowers occur throughout the year and are followed by small green seed capsules. Both the flowers and fruit hang downwards underneath the foliage.

Add some greenery to a shady area under a tree or prune for density and shape in full sun.

Full Sun to part shade

Moderate moisture

Well-drained soil

Bee attracting

Butterfly attracting

HOT TIP: Tip pruning from young can increase density
