

# Sawtooth Lobelia

*Lobelia quadrangularis*

low-BEE-lee-uh quad-rang-you-LAR-is

**A dainty prostrate evergreen groundcover that is fast growing, producing masses of bright blue flowers in Spring.**

This plant makes a great lawn alternative in low traffic areas and is also suitable for hanging baskets.

This beautiful vibrant groundcover also survives fully submerged in fish tanks as an aquatic plant.

Category: Ground cover

Height: 10 cm

Spread: 1 metre

Full sun to part shade

Prefers adequate moisture

Performs best in fertile soil

Butterfly attracting

Lawn alternative

Suitable for hanging baskets
