

Eungella Mint Bush

Prostanthera eungella
Pros-tan-ther-A young-ulla

Category: Shrub (under 5m)

Height: 1.5 metre

Spread: 1 metre

Part - full shade

Moderate water

Well-drained soil

Bee attracting

Butterfly attracting

An erect, small shrub with highly fragrant foliage that has a fresh minty smell and soft lilac flowers.

Growing in semi-shade to full-shade and requiring well-drained soil, this is a beautiful addition to any garden.

HOT TIP: Brushing the foliage will disperse the beautiful minty fragrance
