Flood Hazard Overlay data was supplied by Mackay Regional Council Flood Studies on the Pioneer River, Goosepond Creek, Bakers Creek and McCreadys Creek South in the Mackay and Walkerston urban areas. The flood hazard overlay mapping does not identify all flood hazards and is to be used as a guide only for planning purposes. Always check with Council about whether there is a flood study available for a particular area of interest. The Flood and coastal hazard overlay code is considered to be relevant in areas not covered by the overlay but where developments are below the Defined Flood Event (DFE) or Minimum Floor Levels.

Flood Hazard Overlay data was supplied by Mackay Regional Council Flood Studies on the Pioneer River, Goosepond Creek, Bakers Creek and McCreadys Creek South in the Mackay and Walkerston urban areas. The flood hazard overlay mapping does not identify all flood hazards and is to be used as a guide only for planning purposes. Always check with Council about whether there is a flood study available for a particular area of interest. The Flood and coastal hazard overlay code is considered to be relevant in areas not covered by the overlay but where developments are below the Defined Flood Event (DFE) or Minimum Floor Levels.
