COUNCIL POLICY

PROVISION OF DRIVEWAYS AND PROPERTY ACCESSES

Program: Transport and Drainage Infrastructure Planning

Date of Adoption:27 September 2023Resolution Number:ORD-2023-250Review Date:27 September 2026

Scope

To define the size, number, location, standards and responsibility for construction costs in relation to both urban and rural property accesses where adjacent road construction activities are being undertaken by MRC.

Objective

The objective of the Policy is to define the works in relation to construction standards and cost divisions.

Policy Statement

To put in place a system where during the course of road construction/reconstruction activities MRC affords neighbouring property owners, both urban and rural, the opportunity to construct driveways/property accesses to MRC's standards in conjunction with Council restoring existing accesses damaged to defined standards.

MRC considers that to the extent this policy engages and limits, or potentially limits, any human rights, that limitation is reasonable in that it is proportionate and justified.

This process to remain in force until otherwise determined by Mackay Regional Council

1.0 Principles

Guidelines in relation to construction of urban driveway accesses and non-urban property accesses where adjacent MRC road construction activities are being undertaken are: -

1.1 <u>Urban Areas</u>

- (i) Where concrete tracks and concrete driveways exist to the extent of the proposed kerbline, MRC will provide a full concrete driveway, at no cost to the property owner, from the kerb to the property line for that property at a width consistent with the existing access to a maximum width of that equivalent to the MRC standard.
- (ii) Where no concrete track or driveway exist, MRC, upon agreement with the property owners, will provide a full concrete driveway from the kerb to the property line on a 50% Resident/50% MRC shared cost basis subject to one (1) access only per property being provided under this arrangement and it being constructed to a width to a maximum equivalent to the MRC standard.
- (iii) Construction is to conform with the requirements of MRC's Standard Drawing A3-0773.

1.2 Non-Urban Areas

- (i) In the situation where no access exists, or the existing access is not piped, if a new property access is required across the road table drain and a culvert is needed to handle the normal table drain flow, then, Council will provide and install the nominated culverts of the appropriate diameter and structural grade. Crossing as detailed on Drawing No. A3-8252 & A3-8323 will be provided to each parcel of land. Should additional crossings be required then the property owner will be responsible for the full cost of such crossings.
- (ii) For a property, which has an existing piped access, and the planned road construction requires the relocation of an existing property access then all works will be undertaken as part of the roadworks scheme and at no cost to the property owner. In situations where the roadworks involves major longitudinal drainage and where a property access existed at the time of road construction, then a single standard property access will be provided by MRC as part of the roadworks scheme to each property. Major longitudinal drainage is deemed to occur only when the waterway of the required culvert would be greater than 0.65 square metres.
- (iii) A maximum of two (2) such accesses will be provided to each property. Should additional crossings be required then the property owner will be responsible for the full cost of such crossings.
- (iv) In all cases (i) to (iii) accesses referenced where Council will bear the cost of reconstruction relate only to property accesses which have been approved by Council via Minor Works permits and constructed in

PROVISION OF DRIVEWAYS AND PROPERTY ACCESSES

COUNCIL POLICY

accordance with the standards at the time of construction. Where accesses exist which have been constructed without approval and/or constructed to standards below the required level, Council shall bear the cost of upgrading of two (2) such accesses per property to the required standard, however, the property owner will be required to bear the full cost of relocation and reconstruction together with undertaking the necessary application and approval process to have the access receive the required statutory approval for any additional accesses.

2.0 Complaints

Any complaints in relation to a decision or a service relating from this policy will be assessed and managed in accordance with MRC's Administrative Action Complaints Policy, a copy of which can be found on MRC's website.

When an individual feels that they are the subject of MRC's failure to act compatibly with human rights, they can make a complaint directly to MRC. These complaints will be assessed against the Human Rights Act 2019.

Complaints may be made as following:

In writing to Chief Executive Officer Mackay Regional Council PO Box 41 MACKAY QLD 4740

Via Email - complaints@mackay.qld.gov.au

In person at the following MRC Client Services Centres:

- MRC Mackay Office 73 Gordon Street, Mackay
- MRC Sarina Office 65 Broad Street, Sarina
- MRC Mirani Council Office 20 Victoria Street, Mirani

3.0 Definitions

To assist in interpretation the following definitions shall apply:

Council shall mean all elected representatives of Mackay Regional Council.

Human Rights Complaint shall mean a complaint about an alleged contravention of section 58-1 by a public entity in relation to an act or decision of the public entity.

Longitudinal drainage shall mean drainage contained within the road reserve running parallel to the centre line of the road formation via piped or open drainage systems.

MRC shall mean Mackay Regional Council.

PROVISION OF DRIVEWAYS AND PROPERTY ACCESSES

4.0 Review of Policy

This policy will be reviewed when any of the following occur:

- The related documents are amended or replaced.
- Other circumstances as determined from time to time by a resolution of Council.

Notwithstanding the above, this policy is to be reviewed at intervals of no more than three (3) years.
