

# 8604 Ancillary Electrical Equipment

REVISION 07/02/14

## 8604.1 General

This supplementary specification refers to supply and installation of ancillary electrical equipment not defined in the standard specifications, or in any other supplementary specification. Electrical equipment is to be installed by a licensed electrician as specified in the project Drawings, and manufacturer's shop drawings and/or standard drawings where applicable.

## 8604.2 Referenced Documents

This supplementary specification shall be read in conjunction with the following:

- MRS01 "Introduction to Specifications";
- MRTS01 "Introduction to Technical Specifications"; and
- the project Drawings, and/or manufacturer's drawings and specifications.

## 8604.3 Description of Works

The following work items are covered by this supplementary specification:

Task Item No.	Description	Unit of Measurement
8604	Supply and installation of [size] [power   combined power and water] [bollard   pole], [description] (Refer project Drawing [no])	each
8605	Supply and installation of [equipment description] to pole or bollard (Refer project Drawing [no])	each

## 8604.4 Work Operations

Work operations incorporated in this item will include:

- a) Work operations included in Clause 2.1.5 of MRS01 "Introduction to Specifications";
- b) Supply of all electrical components, parts and fixings;
- c) Installation and/or fixing of all electrical components;
- d) Connection of cabling to component(s); and
- e) Testing of installation.

## 8604.5 Measurement and Payment

Supply and installation of electrical equipment shall be measured for each type of electrical equipment, as stated in Clause 8604.3.
